Ladies and Gentlemen:

I am writing as an interested citizen, an employer of 120 engineers and architects in Cambridge, and a businessperson with interest and commitment to the City of Cambridge and the Central Square area, in particular.

I have followed the progress of the University Park proposals for many months and am familiar with the actions of the Cambridgeport Blue Ribbon Committee, the recommendations of the Environmental Impact Report, the recent review by the Planning Board of the latest zoning petition and the modifications to the original development plan. I strongly urge your support of the new zoning petition for University Park and hope that you will take action to endorse the new zoning petition at your meeting on Monday evening, January 11, 1988.

Perched here at 485 Massachusetts Avenue, we have watched, waited and hoped for some significant forward movement on the University Park project. We would all be delighted to see favorable action by the City Council.

Very truly yours,

SEA Consultants Inc.
