To The Honorable, The City Council:

In response to Awaiting Report Item No. 10, regarding a traffic study of Harvard and Columbia Streets, Susan E. Clippinger, Director of the Traffic, Parking & Transportation Department reports the following:

The traffic study of the intersection of Harvard & Columbia Streets found that there were 13 reported accidents during a 16-month period, eight of which could be corrected by the installation of a full traffic signal. This meets the accident warrant in the Manual on Uniformed Traffic Control Devices. The installation of this signal will go out to bid this winter for construction during the Spring of 1995.

Very truly yours,

Robert W. Healy
City Manager
