January 10, 1938.

Hon. John W. Lyons,
Mayor, Cambridge, Mass.

Dear Sir;-

With regard to the recommendation of the Metropolitan District Commission, filed with the General Court in December, 1937, concerning the "North Metropolitan Relief Sewer" and also the "Report of the Metropolitan District Commission and the Department of Public Health Relative to the Construction of Additional Sewers in the North and South Metropolitan Districts", I wish to say that the program of the City of Cambridge for many years has been the separation of storm water from sanitary sewage and the construction of an entirely separate system throughout the City.

When this separation is completed the amount of sewerage delivered to the Metropolitan Sewer by the City of Cambridge will at no time be much in excess of the present dry weather flow which is being taken care of. A small increase in the flow of sanitary sewage is to be expected as the population of the City increases.

The work of the Sewer Department and all the work done under the Works Progress Administration is toward the end that the sewerage of Cambridge will eventually be entirely separated and no pollution by sanitary matter will result either in Charles River or Alewife Brook.

In view of the past and present expenditures by the City of Cambridge toward the separation of storm water and sanitary matter, it would seem that the proposed assessments as set forth in the letter of Eugene Hultman, Commissioner, dated Dec. 27, 1937, would place an excessive burden on the City of Cambridge in proportion to the benefit derived therefrom.

Very truly yours,

G. F. Hoolbrook

Temporary City Engineer.

CITY CLERK
CITY OF CAMBRIDGE
RECEIVED

1938 JAN -6 AM 10:06

OFFICE OF THE MAYOR

CAMBRIDGE, MASSACHUSETTS

January 11th, 1938.

To the Honorable, the City Council,
Cambridge, Massachusetts.

Gentlemen:-

I am transmitting herewith two communications from Eugene C. Hultman, Commissioner, Metropolitan District Commission, Commonwealth of Massachusetts, dated December 27th, 1937, as follows:-

1. Listing the sums that the various cities and towns will contribute if the $4,230,000.00 North Metropolitan Relief Sewer is extended to the vicinity of Chelsea Creek as recommended by the Metropolitan District Commission and filed with the General Court in December, 1937. The amount the City of Cambridge will have to contribute will be $791,856.00.
2. Listing the sums that the various cities and towns will contribute if the $900,000.00 Alewife Relief Sewer is constructed as recommended in the "Report of the Metropolitan District Commission and the Department of Public Health relative to the construction of additional sewers in the North and South Metropolitan Districts". The amount the City of Cambridge will have to contribute will be $168,480.00.

I am also enclosing a communication from G.Frank Hooker, Temporary City Engineer, dated January 10, 1938, in which he states that the proposed assessments would place an excessive burden on the City of Cambridge in proportion to the benefit derived therefrom; also two orders recording the City Council of Cambridge as opposed to any legislation tending towards the construction of these sewers and authorizing the City Solicitor to appear in opposition to any legislation as aforesaid.

I respectfully recommend these orders to the City Council for action.

Respectfully,

John W. Lyons

Mayor.

COMMUNICATION

from the Mayor, transmitting

16

two from Eugene C. Hultman, Commissioner, Met. District Commission, relative to the amount that the City of Cambridge will have to contribute if certain sewers are constructed; also one from Temp. City Eng relative to the matter; also two orders in opposition to construction of said Sewer.

Referred to A.
