CITY OF CAMBRIDGE

CITY OF CAMBRIDGE.

In Board of Aldermen, October 10th, 1893.

The Joint Standing Committee on Roads and Bridges

to which was recommitted so much of a report of the Committee of September 19, 1893, as relates to the question as to the expediency of acquiring the vacant lot of land at the junction of Main and Front streets, with the request that a report be made upon the feasibility of taking enough of said land to straighten the easterly side of Columbia street, and the probable cost of the same;—

Reports

That under an order approved July 25, 1889, the City has already taken 82 sq. feet of land at the junction of Main and Front streets, for the purpose before mentioned, such taking being in accordance with the blue line shown upon the original plan of the extension and laying out of Front street. The sum of \$ 140.00 was awarded for the land so taken. The reason why the curbstone was not set back to the line of said taking, was that objection was made to the removal of the large tree which stands immediately in the way of the proposed improvement. An order of notice ⁱⁿ reference to the removal of this tree will be reported by the proper committee.
