Re : Perini Corporation - Job 696
Harvard Square Station
MBTA Contract No. 091-202

Subject : Completion of Surface Restoration Work

Gentlemen;

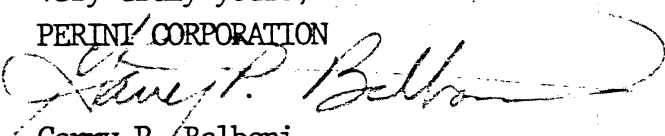

Please be informed that as of December 8, 1984 we will complete the surface restoration work in Harvard Square. All landscaping, street paving, sidewalk and crosswalk brick paving, as well as street and traffic lighting and signing will be complete.

The only work remaining to be completed, next spring, will be the street markings, which has been held off by the Authority until 1985. Only the restoration of Flagstaff Park, which has been delayed by the Authority will be remaining for completion in 1985.

By copy of this letter to the City of Cambridge, we wish to notify all parties concerned that Perini Corporation will not do any snow plowing, snow removal, or sanding this upcoming winter season, since our work has been completed.

We wish to thank everyone in the City for their assistance and cooperation over the past five winters in Harvard Square. It is our hope that all the citizens of Cambridge and the many travellers through Harvard Square will enjoy the newly constructed surroundings, which we proudly return to the City of Cambridge.

Very truly yours,
PERINI CORPORATION
