

To the Hon^{ble} the Mayor and Aldermen of
the City of Cambridge; in their
Capacity of Surveyors of Highways;

Respectfully represents the undersigned
that Prescott Street, in Ward I, was duly
accepted by the City as a public highway
many years ago, but has never been graded,
and its condition, particularly at the southern
end, at the present time, is not creditable to
the City, nor convenient for the public travel. The
gutters have been clogged, the drainage stopped,
and the surface of the road bed is uneven and
strewn with brickbats - the refuse material from
the paving of the sidewalk of Harvard Street
last November. Wherefore he prays that
the attention of the Superintendent of Streets
may be directed to the matter; and
that the true grade of the Street may
be established as soon as possible by the
City Engineer.
