Cambridge City Council

City Hall

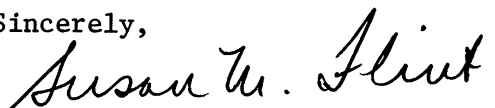

Cambridge, Mass. 02139

Dear City Council Members:

I applaud your decision to ban smoking in public places in Cambridge. I have long felt that a person who has chosen not to smoke had rights to be in rooms that were smoke free. Too often I have been in a restaurant trying to enjoy a meal while feeling nauseated because someone at the next table was blowing smoke my way. With this new law I will feel much more comfortable asking people to extinguish their cigarettes.

Thank you for your forceful action.

Sincerely,

Susan M. Flint
