

City of Cambridge

O-5.

IN CITY COUNCIL

~~February 7, 2000~~

February 14, 2000

COUNCILLOR BORN
COUNCILLOR BRAUDE
COUNCILLOR DECKER
COUNCILLOR GALLUCCIO
COUNCILLOR MAHER
COUNCILLOR REEVES
COUNCILLOR TOOMEY

RESOLVED: That the City Council refer the attached petition to the City Manager; and be it further

RESOLVED: That the City Council go on record in support of the continuation and importance of community gardens in Cambridge.

In City Council February 14, 2000.

Adopted by the affirmative vote of nine members.

Attest:- D. Margaret Drury, City Clerk.

A true copy;

ATTEST:-

A handwritten signature in cursive script that reads "Margaret Drury".

D. Margaret Drury
City Clerk

**Petition to the Honorable Francis H. Duehay, Mayor,
the Cambridge City Councillors, and the appropriate City Departments:**

We the undersigned petition the City of Cambridge to purchase all of the land currently under cultivation by community gardeners next to the Squirrel Brand factory building at the corner of Broadway and Boardman streets, to protect it from being built upon, and to preserve its use as a Community Garden.

Among many reasons in support of this petition we briefly cite the following:

Gardening is a productive, healthful, renewing outdoor activity suitable for all ages, and the #1 "hobby" in America.

Cambridge has few Gardens, for a city of its size.

This Garden's neighborhood has very little open space.

Many local schools and youth programs enjoy use of this Garden as an outdoor classroom and for after-school activities.

Such Gardens afford low income persons the space, means, and education to grow much of their own food and additionally donate produce to the local food pantries.

This Garden's location allows large numbers of pedestrians and commuters to enjoy it.

Such Gardens promote neighborliness in our diverse community and increase public safety.

Such Gardens are "part of the solution" to current environmental problems, providing increased diversity of plants and animals and a model for sustainable agriculture.

Community Gardens are inexpensive to maintain because the gardeners tend them as volunteers.

This Garden was cited "Superior Example of an Ongoing Community Garden" by the Massachusetts Horticultural Society in the 1998 Community Garden and Urban Landscape Awards.

**Petition to the Honorable Francis M. Duehay, Mayor,
the Cambridge City Councillors, and the appropriate City Departments:**

We the undersigned petition the City of Cambridge to purchase all of the land currently under cultivation by community gardeners next to the Squirrel Brand factory building at the corner of Broadway and Boardman streets, to protect it from being built upon, and to preserve its use as a Community Garden.

Among many reasons in support of this petition we briefly cite the following:

Gardening is a productive, healthful, renewing outdoor activity suitable for all ages, and the #1 "hobby" in America.

Cambridge has few Gardens, for a city of its size.

This Garden's neighborhood has very little open space.

Many local schools and youth programs enjoy use of this Garden as an outdoor classroom and for after-school activities.

Such Gardens afford low income persons the space, means, and education to grow much of their own food and additionally donate produce to the local food pantries.

This Garden's location allows large numbers of pedestrians and commuters to enjoy it.

Such Gardens promote neighborliness in our diverse community and increase public safety.

Such Gardens are "part of the solution" to current environmental problems, providing increased diversity of plants and animals and a model for sustainable agriculture.

Community Gardens are inexpensive to maintain because the gardeners tend them as volunteers.

This Garden was cited "Superior Example of an Ongoing Community Garden" by the Massachusetts Horticultural Society in the 1998 Community Garden and Urban Landscape Awards.

Mr. Joseph S. Vera
11 Soden Street
Cambridge, MA 02159-5154

Dec. 6, 1999

Henrietta Davis

Ordinance Committee

Cambridge City Council

Dear Mr. Davis,

On two occasions over the last two years, there have been neighbors in Prec 4 Ward 4 who have maintained more than two unregistered vehicles in their yards.

The City Clerk informed me that the only pertinent ordinance deals with maintaining a public nuisance. However, the standard is very subject.

Some cities + towns have an ordinance which states that to have more than two unregistered vehicles in a residential yard constitutes a public nuisance.

Could you propose such an ordinance for Cambridge?

Sincerely
Joseph S. Vera

**Petition to the Honorable Francis M. Duehay, Mayor,
the Cambridge City Councillors, and the appropriate City Departments:**

We the undersigned petition the City of Cambridge to purchase all of the land currently under cultivation by community gardeners next to the Squirrel Brand factory building at the corner of Broadway and Boardman streets, to protect it from being built upon, and to preserve its use as a Community Garden.

Among many reasons in support of this petition we briefly cite the following:

Gardening is a productive, healthful, renewing outdoor activity suitable for all ages, and the #1 "hobby" in America.

Cambridge has few Gardens, for a city of its size.

This Garden's neighborhood has very little open space.

Many local schools and youth programs enjoy use of this Garden as an outdoor classroom and for after-school activities.

Such Gardens afford low income persons the space, means, and education to grow much of their own food and additionally donate produce to the local food pantries.

This Garden's location allows large numbers of pedestrians and commuters to enjoy it.

Such Gardens promote neighborliness in our diverse community and increase public safety.

Such Gardens are "part of the solution" to current environmental problems, providing increased diversity of plants and animals and a model for sustainable agriculture.

Community Gardens are inexpensive to maintain because the gardeners tend them as volunteers.

This Garden was cited "Superior Example of an Ongoing Community Garden" by the Massachusetts Horticultural Society in the 1998 Community Garden and Urban Landscape Awards.

Many local schools and youth programs enjoy use of this Garden as an outdoor classroom and for after-school activities.

Such Gardens afford low income persons the space, means, and education to grow much of their own food and additionally donate produce to the local food pantries.

This Garden's location allows large numbers of pedestrians and commuters to enjoy it.

Such Gardens promote neighborliness in our diverse community and increase public safety.

Such Gardens are "part of the solution" to current environmental problems, providing increased diversity of plants and animals and a model for sustainable agriculture.

Community Gardens are inexpensive to maintain because the gardeners tend them as volunteers.

This Garden was cited "Superior Example of an Ongoing Community Garden" by the Massachusetts Horticultural Society in the 1998 Community Garden and Urban Landscape Awards.

**Petition to the Honorable Francis M. Duehay, Mayor,
the Cambridge City Councillors, and the appropriate City Departments:**

We the undersigned petition the City of Cambridge to purchase all of the land currently under cultivation by community gardeners next to the Squirrel Brand factory building at the corner of Broadway and Boardman streets, to protect it from being built upon, and to preserve its use as a Community Garden.

Among many reasons in support of this petition we briefly cite the following:

Gardening is a productive, healthful, renewing outdoor activity suitable for all ages, and the #1 "hobby" in America.

Cambridge has few Gardens, for a city of its size.

This Garden's neighborhood has very little open space.

Many local schools and youth programs enjoy use of this Garden as an outdoor classroom and for after-school activities.

Such Gardens afford low income persons the space, means, and education to grow much of their own food and additionally donate produce to the local food pantries.

This Garden's location allows large numbers of pedestrians and commuters to enjoy it.

Such Gardens promote neighborliness in our diverse community and increase public safety.

Such Gardens are "part of the solution" to current environmental problems, providing increased diversity of plants and animals and a model for sustainable agriculture.

Community Gardens are inexpensive to maintain because the gardeners tend them as volunteers.

This Garden was cited "Superior Example of an Ongoing Community Garden" by the Massachusetts Horticultural Society in the 1998 Community Garden and Urban Landscape Awards.
