Dear Member of the Cambridge City Council:

This note is to commend you for your appointment of a Commissioner of Laboratory Animals! How wonderful it was to read of this action - taken to ensure the humane treatment of laboratory animals!

Personally, I am opposed to the use of animals in research - but as it, for the time being at least, is going to take place - the humane treatment of such animals should certainly be the first priority.

Congratulations for such a kind, enlightened, fine deed! If you have any suggestions for bringing this about in other cities, I would appreciate hearing them. The Houston Mayor and City Council seem to expend their energies trying to get the Super Bowl by adding seats to the Astrodome, and like projects.

God Bless all of you. Sincerely,

(Mrs.) Janie Spence
