2. The purposes for which the corporation is formed are as follows:

E-PACE, Inc. is organized around the notion that constructive solutions must be found for the nation's urban problems. We contend that meaningful involvement of inner-city parents in the decision making process of institutions (school, business & government) that affect their lives is crucial. Further, that the residents of suburban communities must be sensitized (made aware of urban problems and how their fate is inextricably tied to them) to the point of direct action. We propose therefore to develop programs that will both directly and indirectly lead to improvement of educational opportunity within the inner-city communities. It is felt that these efforts will increase the ability of inner-city residents to manipulate (control) their environment. More specifically E-PACE will provide technical assistance in the following areas:

Parental Involvement: To assist parents in developing the organizational skills needed to fully participate in government programs
