City Manager

RICHARD C. ROSSI
Deputy City Manager

May 10, 1993

To The Honorable, The City Council:

This is in response to awaiting report #39, communication #16 dated April 26, and Calendar Item numbers 3, 4, 5 and 6. Attached is a memorandum from Michael Rosenberg, Assistant City Manager, Community Development Department, describing the extensive review process followed by the Planning Board with respect to the proposed townhouse development at Concord Avenue and Garden Street. As the memorandum indicates, changes were made in the proposal in response to the initial opposition of the neighborhoods before the Planning Board. Neighborhood 10 has given a strong endorsement of the proposal as modified.

Attached also is a memorandum from George Teso, Director of Traffic and Parking concerning this project. As the Council knows, a traffic study of the broader Arsenal Square area, including Chauncy and Garden Street, is underway and will be completed this summer. In the opinion of the Traffic and Parking Department, the proposal for the townhouse development will have no significant impact on the traffic in the area. For that reason, it would not be necessary or appropriate to hold up the project pending the conclusion of that study.

The application for four curb cuts has been reviewed and approved by all the applicable Departments.

Very truly yours,

Robert W. Healy

SUBJECT: Driveway for 17-23 Concord Ave and 36-42 Garden Street
=====

On April 23, 1993, the Traffic Department recommended approval of four new driveways for 17-23 Concord Avenue and 36-42 Garden Street.

One driveway will serve the new residents at 19, 21 and 23 Concord Avenue. The design allows vehicles to drive into and out of the driveway and provides adequate sight clearance for the resident to enter or exit Concord Avenue safely.

The new driveways for 36,38 and 40 Garden Street will each be 12 foot wide and will access two side by side parking spaces for each unit. Access to these spaces is no more hazardous than other residential driveway on similar streets.

As I stated in my answer to Council Order #37, (3-15-93), we are conducting a comprehensive traffic signal study of the Arsenal Square Area to determine the safest and best design for pedestrians, bicyclists and vehicles through the square. It is my opinion that these proposed residential driveways will have no negative effect on the traffic operation of Arsenal Square.

May 4, 1993

To: Robert W. Healy, City Manger

From: Michael Rosenberg, Assistant City Manager, CDD *MR*

SUBJECT: Communication #16, dated April 26, 1993

The above referenced communication refers to a townhouse development which received a Special Permit from the Planning Board on April 13, 1993.

That townhouse development, located at Concord Avenue and Garden Street, consists of eight single and townhouse homes on nearly three quarters of an acre of land; an additional three dwelling units which will not be built would be permitted on the lot under the density limits of the Residence B district, the applicable zoning district. Additional floor area was permitted by the Planning Board, to the extent described in the communication. In addition, minor variances were granted to permit gable and dormer elements on the top floor of some of the buildings and to permit the provision of a second parking space on each lot without increasing the amount of driveway paving excessively. The zoning ordinance permits the Planning Board to issue such variances as part of a Planning Board Special Permit, with the intent of reducing bureaucratic complications that might result from the review of a single project by two different Boards.

A great deal of public input was solicited at the project's public hearing and at subsequent discussions at regular Planning Board meetings. More than a score of interested citizens attended that hearing and gave a variety of testimony, ranging from all out support, through skepticism, to opposition. As always, the testimony was very valuable to the Planning Board, which encouraged further discussions between the applicants and concerned residents. Neighborhood Nine generously agreed to help coordinate such efforts. In addition, the Board received a communication from the

Traffic and Parking Department indicating that the proposal, as modified, met all Department concerns regarding traffic safety and on street parking preservation. Another communication from the staff of the Cambridge Historical Commission supported the specific site layout and building designs for their respect for, and enhancement of, the surrounding historic environment.

At the two subsequent meetings of the Planning Board, significant amounts of time were devoted to further discussion of the project; additional public testimony was taken, including a strong endorsement of the proposal from the Neighborhood 10 Association. Throughout this process additional neighbor-sponsored meetings with and without the applicant occurred and important changes to the proposal were agreed upon. Those changes were incorporated into the Planning Board's approval.

It is totally inaccurate to describe the Planning Board's actions as lawless. The Board was perfectly aware that the additional FAR request was a very serious matter; it was granted after careful deliberation and upon a finding that circumstances peculiar to this location and this lot justified the additional gross floor area, which could be granted without violating the intent of the ordinance, or the Residence B district specifically. Further, the variance would permit a development which provided substantial public benefits that might not have been achieved with a perfectly conforming development.

Much of the Residence B district within which this development is located is built out to densities approaching or exceeding those permitted in a Residence C-1 District. Considerable adjacent development is actually at a much higher density in the form of five to seven story apartment buildings. The floor area variance permits the new development to match, in scale, the prevailing, and admired, development pattern in the neighborhood; to duplicate the single family and two family character that also prevails; and to reflect in an elaborate and refined design, the historical styles from which the existing neighborhood derives so much of its appeal.

Re: Curb Cut Petitions
36-40 Garden Street
23 Concord Avenue

RECEIVED BY
OFFICE OF CITY CLERK
1993 MAY - 6 PM 3:50
CAMBRIDGE MA.

To the City Councillors:

I am writing with regard to four curb-cut petitions which were presented to the City Council last Monday, May 3, 1993, as Consent Communications Nos. 11-14. These petitions were Charter Righted by Councillor Toomey.

The curb cuts are associated with the construction of seven new homes at this location. We have designed these new homes to be compatible with the existing streetscape and with the traditional architectural styles which characterize the homes in the neighborhood. Though the Zoning Ordinance would permit ten new units on this site, we have proposed to build only seven new homes. We have worked hard to respond to the concerns and desires for this site as expressed by neighbors, local activists, city agencies and other interested parties.

The curb cuts, as well as the new homes, have been reviewed by many interested parties over the past four months. There have been four hearings before the Planning Board, as well as numerous meetings with neighbors and neighborhood associations. Ultimately, the Planning Board and the neighborhood associations all approved the new homes and parking design. The purpose of this letter is to outline for the Councillors the various parties that have reviewed and approved the curb cuts, and to summarize for the Councillors some of the parking-related comments made during the public review process.

The curb cut petitions have been reviewed, approved and signed by the following parties:

1. Inspectional Services Department;
2. Traffic and Parking Department;
3. Historical Commission;
4. Department of Public Works;
5. Neighborhood 10 Association;

6. Neighborhood 9 Association; and
7. Abutters to the property.

By letter of April 12, 1993, the City Manager forwarded a status report prepared by George Teso, the Director of Traffic and Parking, which addressed the traffic at the Arsenal Square intersections. Mr. Teso concluded that the proposed curb cuts "will not have any effect on the operation of the intersections."

Lauren M. Preston, Deputy Traffic Director, previously reviewed the proposed parking and curb cuts for these seven new homes. His report dated March 2, 1993, concluded that "this is a reasonable project for this site and should receive the required approvals."

The design and location of the curb cuts were approved by the Planning Board as part of the Special Permit granted for the seven new homes. Parking was a central issue of the Planning Board process and has been discussed, analyzed, and negotiated with the Planning Board, the Community and Development staff, and three neighborhood associations since January 1993. The parking areas and curb cuts were redesigned in several respects in order to accommodate the concerns expressed by the Board and the neighborhood associations. A few parking-related excerpts from the Planning Board's decision follow:

The modest number of units to be developed on the site (three less than permitted in the Residence B District) and the limited number of curb cuts proposed are reasonable responses to the concerns expressed regarding the safety concerns ... The number of vehicle trips generated by this development will be modest and can be accommodated without detriment to the public safety. ... [O]nly two on street parking spaces will be lost.

The parking areas will be landscaped, will be completely paved in precast, brick pavers, and will be provided, variously, with trellises, screening fences, and/or gates that will minimize the visual impact of the parked cars from the public streets and sidewalks; in any case cars will be located behind the facades of the new buildings.

Charles M. Sullivan, Executive Director of the Cambridge Historical Commission, wrote the following about the proposed homes:

It seems to me that the CEA Group's proposal comes as close to reweaving the fabric of the neighborhood as is possible under current zoning. I feel that CEA's designs are highly sensitive to their context, and that the seven proposed units will not overload the site.

Another highly supportive letter was written by William Lyman Porter, FAIA, Professor of Architecture and Planning at MIT and formerly the dean of the School of Architecture and Planning. Mr. Porter praised the proposed homes for their "conscientious planning and design." He had this to say about the issue of traffic on Garden Street:

Traffic, indeed, may be a problem. If so it will not be significantly exacerbated by cars entering at the very modest rate that will result from Mr. Cohen's new units. The problem can neither be noticeably worsened nor improved by what is done on Mr. Cohen's site. The development proposal and the exceptions requested should, therefore, not be held hostage for a problem that they neither caused nor can solve.

I simply wish the Councillors to know that these curb cuts have been extensively reviewed and approved by a great variety of interested parties over the course of many meetings and many public hearings over the past four months. The process has resulted in a number of revisions to and improvements of the project. The process has worked. The level of support which we have received from the City and the neighbors has been gratifying.

Accordingly, I respectfully request that the City Council grant these curb cut petitions at its May 10, 1993 meeting. Thank you for your consideration of this matter.

Sincerely,

Steven A. Cohen

Re: Petition for Curb Cuts
New Residences at Garden Street and Concord Avenue

Dear Ms. Drury,

This is to inform you that on 28 April 1993 I spoke with Dan Geer of the Bellis Circle Association regarding the petitions for curb cuts on Garden Street and Concord Avenue. Mr. Geer stated that he is on the Board of the Neighborhood 9 Association and is fully informed of the proposed residences and curb cuts. He further stated to me that he does not intend to sign or return the notice which your office has forwarded to him.

Jack Joseph, president of the Neighborhood 9 Association, has informed me as follows. The Bellis Circle Association is a sub-group of the Neighborhood 9 Association which felt that its area was not adequately represented in the past. Mr. Joseph states that the area of this group's concern is not near the location of the proposed curb cuts and he cannot understand why their approval would be required. Furthermore, he told me that Dan Geer is no longer on the Board of the Neighborhood 9 Association and, in fact, he no longer lives in Neighborhood 9.

Finally, Liza Malenfant of the Community Development Department does not understand why the Bellis Circle Association would be interested in or involved with this petition for curb cuts. She confirms that the area of this group's concern is not near the location of the proposed curb cuts.

Accordingly, we ask that you place these petitions on the agenda for the City Council's May 2 meeting. Thank you for your consideration.

Very Truly Yours,

Barry Ganek

Please be advised that this office is in receipt of a petition from Steven A. Cohen requesting curb cuts at the premises numbered **23 Concord Avenue, 36 Garden Street, 38 Garden Street and 40 Garden Street, Cambridge, Massachusetts.**

The City Council has directed that all curb cut petitions be submitted to the appropriate Neighborhood Associations where said curb cut would be made for their approval, prior to action by the City Council. Please indicate by return mail your approval or disapproval of said petition within ten days from the receipt of this letter. I have enclosed a self-addressed stamped envelope to facilitate your reply.

Your kind cooperation in this matter will be greatly appreciated by the members of the City Council.

Sincerely yours,

D. Margaret Drury

APPLICATION FOR DRIVEWAY CUTS AND OPENINGS

CITY OF CAMBRIDGE

INSTRUCTIONS:

In order to obtain permission for a driveway cut or opening you must first get approval from the Department of Inspectional Services on the zoning requirements for off-street parking, including the cooperation of your immediate abutters.

To receive a review from Inspectional Services you must fill out Part I of the application. Be sure to draw your plot plan on Drawing 1, choosing the lot that represents your lot's position, i.e. corner or interior. You must also include a sketch of the proposed driveway, including dimensions, on Drawing 2. You may then calculate the cost of the driveway by using the formula based on your choice of surfaces. You must also include a signed abuttor sheet for each of your abuttors: back yard, one on either side and the abuttor directly across the street.

Once you have gathered this information on the application, it should be submitted to:

Zoning Officer
Inspectional Services
831 Massachusetts Avenue
Cambridge, MA 02139

If the application is approved by Inspectional Services, it will then be sent on to Traffic and Parking, the Historical Commission and the Department of Public Works. If approved by Public Works, the application and backup will be sent to the City Council for their approval. Once the City Council approves, the driveway curb cut can be installed. However, the full cost of the cut must be paid to Public Works before the work will start.

If, however, Inspectional Services denies your application you may then appeal to the Zoning Board of Appeals.

DATE:

4 / 20 / 93

PART I:

Address of proposed curb cut or off-street parking facility: <u>36 Garden Street</u>	
Frontage: <u>181 FEET</u>	Block and Lot: <u>LOTS 36A, 36B, 36C</u>
Setback (distance from building to sidewalk): <u>15 FEET</u>	
Distance from proposed driveway to surrounding structures and property line: <u>SEE PLAN & SPECIAL PERMIT</u>	
Dimensions of proposed driveway: <u>SEE PLAN</u>	
Location of any trees, sign posts, fire hydrants, utility poles, etc., in direct vicinity of proposed driveway: <u>SEE PLAN</u>	

- ☒ Plot plan is included
- ☒ Sketch of driveway with cost estimate is included
- ☒ All abuttor's forms are included
