EXECUTIVE DEPARTMENT
JAMES L. SULLIVAN
City Manager

December 1, 1980

To the Honorable, the City Council:

With respect to Awaiting Report Item No. 21 relative to the drainage problem on Jackson Street, please be advised that because the grading of the street in the area of #90 is extremely flat the entire gutters and center line of the street needs to be reprofiled. There are no funds in this year's Public Works budget to do this work, but a request will be made to include it in next year's budget review.

Very truly yours,

James L. Sullivan
City Manager

JLS/mbf

Agenda # 2

S-544

Awaiting Report Item No. 21 relative to
the drainage problem on Jackson Street.

In City Council,
