Asst. Clerk of the Board
Grace M. Lennon

1988-1989

Dear Colleague in Government and all interested parties:

The cost of solid waste disposal is escalating and the contamination of our ground water is increasing at an alarming pace. The time has come for all of us to reduce our solid waste stream to ameliorate this situation.

The Public Facilities Committee of the Newton Board of Aldermen is meeting on Wednesday, March 23 at 7:45 p.m. to hear testimony on a measure designed to eliminate plastic milk containers from the City's solid waste stream.*

Because this problem is common to each of us, we invite your attendance and participation in this meeting.

If you would like further information about this measure, please contact the Office of the City Clerk at 552-7033.

Best wishes,

Paul D. Snyder
Alderman-at-Large
Ward 3

*Milk gallon containers are made from a product consisting of high density polyethelene which currently sells for approximately \$200 per ton.

cc. James Hickey, Public Works Commissioner

Comm. from Paul D. Snyder, Alderman-At-Large, Newton, inviting attendance at a meeting of the Public Facilities Committee of the Newton Board of Aldermen on Wednesday, March 23, 1988 at 7:45 p.m. to hear testimony Re: measure designed to eliminate plastic milk containers from the City's solid waste stream.

In City Council,

March 14, 1988
