The Cambridge City Council
Cambridge City Hall
795 Massachusetts Avenue
Cambridge, Massachusetts 02139

To The Honorable, The City Council:

At its last meeting, the Council on Aging voted to support the concept of a Continuing Care Retirement Community for Cambridge.

There is a need for supportive housing and services for elders of all incomes and a Continuing Care Retirement Community would offer independent living in apartments and nursing home care in the same facility.

We see this concept as an opportunity to expand and diversify living options for elders in Cambridge and ask the Council for its consideration and support so that a Continuing Care Retirement Community can become a reality for Cambridge elders of all incomes.

Sincerely,

Oliver Cox

Oliver Cox, Chairman
Cambridge Council on Aging
