WHEREAS: Recycling was the environmental success story of this generation, and recycling has become a part of the environmental ethic in American households and businesses across the country; and

WHEREAS: We must build upon the success of the nation's recycling efforts, and explore new ways to build upon these successes to address the next generation of environmental and societal challenges; and

WHEREAS: There is a need for a more concerted effort to examine further how to extend the recycling ethic to new approaches to conserving energy, natural resources, materials and other resource conservation goals; and

WHEREAS: As we look to the future, we must adopt new measures and pursue policies to increase resource conservation actions which fully tap the substantial support among American businesses and households for such efforts; and

WHEREAS: Cities are uniquely situated to provide leadership, ideas and agenda-setting actions that advance resource conservation as the environmental ethic of the next couple of decades; now therefore be it

RESOLVED: That the Cambridge City Council supports a broad agenda to ensure that resource conservation becomes a priority for the nation and calls upon cities throughout the Commonwealth and the Country to help ensure that resource conservation is a part of the national agenda.
