

June 8, 1989

HONORABLE MEMBERS OF THE
CAMBRIDGE CITY COUNCIL

RECEIVED

JUN - 9 1989

.....

Dear Council Members,

We the parents of the Haggerty School Childcare children are writing to voice our concerns to help our teachers win these contentions, not only for themselves but for our children.

Our childcare providers are struggling with low wages, no family health insurance, no pension, and no overtime.

We want the city to support their salaries and not place the burden of increases solely on parent tuition and we would like their salaries brought up to par.

They would like optional family health insurance, a pension plan and time paid for time worked, including tuition reimbursement for teachers taking relevant courses to enhance their learning skills.

We can't expect teachers and programs to function properly at the current status. We urge you to support their positions to improve the quality of childcare.

Respectfully Yours,

Donna Weston

Parents,

We the parents of the Haggerty School Childcare children need to write and voice our concerns to help our teachers win this contention, not only for themselves, but for our children.

We can't expect our children to function with an extreme high turnover of staff.

Please sign and return to Laurie, Lucy or Donna Walton as soon as possible.

Also, you can take extras for other people to sign and call any of the council members.

Thank you.

HONORABLE MEMBERS OF THE
CAMBRIDGE CITY COUNCIL

Dear Council Members,

We the parents of the Haggerty School Childcare children are writing to voice our concerns to help our teachers win these contentions, not only for themselves but for our children.

Our childcare providers are struggling with low wages, no family health insurance, no pension, and no overtime.

We want the city to support their salaries and not place the burden of increases solely on parent tuition and we would like their salaries brought up to par.

as continued tuition increases would prohibit many children from the preschool experience.

They would like optional family health insurance, a pension plan and time paid for time worked, including tuition reimbursement for teachers taking relevant courses to enhance their learning skills.

We can't expect teachers and programs to function properly at the current status. We urge you to support their positions to improve the quality of childcare.

Respectfully Yours,

Margaret A. Mangau
