March 18, 1991

To The Honorable, The City Council:

In view of the major potential economic, social, political, and environmental effects on the City and its residents which may arise from litigation by the City affecting the Central Artery/Tunnel Project, I am requesting an opportunity for discussion in Council of the City's strategy and prospects for achieving its objective through litigation and/or any and all alternatives to litigation prior to the commencement of any legal or administrative proceeding by the City.

Due to the fact that the City's response to the Final Supplemental Environment Impact Report is due shortly, I am requesting that time be allocated at this evening's meeting.

Thank you for your cooperation in this matter.

Very truly yours,

Walter J. Sullivan
City Councillor
