RE: Alpine Street Speed Limit

Date: September 27, 1999

Thank you for responding to our earlier letter by placing a temporary speed monitor on Alpine St. It demonstrated that the current speed limit on Alpine Street is too high. Although many drive faster than the 30 mph limit, even those at or slightly below the limit are dangerous. As we wrote before (July 12, 1999), Alpine Street (between Concord and Vassal) has become a heavily used speedway, especially during commuting hours. We ask that the city seek approval from the state to set the limit at 20 mph.

We would welcome traffic calming and efforts to lessen traffic on Alpine. The primary, and most effective, safety strategy is to lower the speed limit, post it, and enforce it.

Thank you for your consideration.
