Mary Horgan
Cambridge City Hall

July 12th 2000

Dear Ms. Horgan,

I am very unhappy about the seemingly mindless destruction of goose meadow. I have seen your letter outlining why changes were made and who authorized them. I choose not to go into all that. My concerns is that there is no mention in your letter about making sure the geese's habitat be either undisturbed or completely adequately replaced. It seems obvious to me that if these changes were holistically conceived, including the value of wildlife, the geese would be safe. Why is the decision making process leaving out the fate of the geese?

Sincerely,

Pamela Steiner

Consent Communication #11
