The Honorable City Manager, Mayor
and City Council
Cambridge City Hall
Cambridge, Massachusetts

Dear Sirs:

In support of the Cambridge Concerned Citizens Against Police Brutality, the officers and members of the Cambridge Interested Citizens are appalled at the indifference presently being shown by officialdom within the City of Cambridge relative to the recent and present allegations of excessive force against certain citizens being used by a few members of the Cambridge Police Department. We feel that a speedy and just resolution of these allegations is absolutely vital if for no other reason than the protection of the characters of those police officers who are just and truly committed to an honorable code of ethics.

We, therefore, support all individual and group efforts dedicated to securing justice in this situation and invite you, our elected representatives, to join in this most worthwhile cause.

Very truly yours,

Norman C. Watson
President
