To the Honorable, the City Council:

In response to Awaiting Report No. 7 and No. 27 regarding the restoration of the 1934 fire engine stored at Company #7, in the opinion of the Fire Chief, it is of paramount importance for public safety to concentrate the available resources on the repair of first line apparatus that is currently used to respond to fire emergencies. Additionally, due to the age of the vehicle, it is extremely difficult to locate replacement parts.

Very truly yours,

Robert W. Healy
