

Cambridge October 23^d 1892

Mr. Mc. Duffre

Dear Sir,

Yes. We are
very desirous to have our street graded and paved
through. We have expended more than \$60 in surveys
and plans, and wish our house-lots might come
into the market. My impression is that if the
land and soil now on the land could be an offset
for the whole expense incurred, and for raising
the lower part and grading it, we should be glad
to make such an arrangement at once.
We will ^{very soon} attend to the matter and write you
more specifically if necessary.

I am old and very
infirm; my son, John V. Apthorp, now lives in
Boston. His office is at No. 20 Water St.
He was here in spring and gave his attention to
this matter. He will be likely to call on you or to
write as soon as he hears from me.

Yours very truly H. O. Apthorp

8.35 Am

Monday Apr 17. 82

Dear Sir:

Can I do anything to help
the pete of H.O. Apitrop for
layg out street-across his land
from Putnam str to Barnes St.?

If so will you notify me of
Committee on Roads & Bridges meeting.

Yrs truly:

Frederick M. Howe

Boston, Oct. 25 1882

Mr. John McDuffie
Dear Sir

Your note of
21st inst. is received.

I am ready to do just
what I offered to do
last Spring viz: to
throw open the street
and give up the land to
the City according to
plans and elevations
made by the engineer
Mason and now in
possession of your City
Engineer or Committee
on Roads & Bridges.
I should expect the

JOHN V. APTHORP,
REAL ESTATE AND MORTGAGES.

40 WATER STREET, ROOM F.

BOSTON, 188

City to raise and grade
the street allowing us
the turf and soil.
Material for raising
and grading is close
at hand.

I am ready to
appear before your com-
mittee or any time
on due notice.

Very truly yours
John V. Apthorp
