

29 Ellsworth Avenue
Cambridge
September, 1985

Dear Councillor Vellucci:

My neighbor, Youville Hospital, is undergoing a large expansion project. Because I live at the Cambridge Street end of Ellsworth Avenue I am very aware of construction activity near my house. When the hospital recently constructed a driveway near the Leonard Avenue side of their property, they also removed a city tree, a parking meter, replaced a section of side walk and made a curb cut. I was under the impression that work involving city property should be done by the city.

My great worry is: will the hospital be held accountable for proper permits and permissions? Such a huge project should not be treated in a casual manner.

Thank you for your attention.

Sincerely,
Arnold Kaplan

15.
