Keep Cambridge the kind of place where people want to live!

The Cambridge Residents for Growth Management is proposing changes in Cambridge's Zoning law. These changes would:

- Reduce the maximum allowed building size to match the character of a neighborhood's current buildings
- Create transition zones where neighborhoods meet commercial districts
- Create incentives to build new affordable housing
- Offer stronger protections for green space and open space
- Reduce excessive height limits
- Protect and support small businesses
- Require public review for all projects with significant impacts

We, the undersigned, support the Growth Management Zoning Petition and urge the City Council to vote YES on its passage!
