NOTES:

¹ In many cases only portions of the listed streets and sidewalks need work. A field check will be needed.

² These streets serve major lower-income housing sites in the neighborhood.

³ Parking problems creating hazardous conditions must be dealt with before street work is done.

⁴ Needs storm sewer work.

To Block Grant Advisory Committee

From Peter Helwig

Date April 6, 1978

Subject 1978-79 Street and Sidewalk Improvements

A year ago the Community Development Department prepared the attached Street and Sidewalk improvement priority list. Sources included several surveys and our own field checks; a Block Grant Advisory Committee meeting was then held to review the list and make adjustments.

We are now updating the list for the coming fiscal year and request your assistance in identifying streets and sidewalks in serious need of work. Please keep in mind that most of the city's sidewalks and a large proportion of its streets could use improvement; we are interested in identifying the worst situations.

For the first time, a small portion of the sidewalk money will be targeted for spot reconstruction of small segments of sidewalks which are in particularly bad shape, even though most of the block is in reasonably good repair. Your help is needed to identify these trouble spots.

Please phone in your suggestions and comments by Friday, April 14, to Dick Lockhart (876-6800, ext 355) or Pete Helwig (876-6800, ext. 348). We will then field check your suggestions, update the list, and mail you a copy. Finally, an Advisory committee meeting will be held Wednesday, April 26, at 7:30 pm in the City Council Chamber to review and finalize the revised priority list.
