Hon. City Council,
City Hall,
Cambridge, Mass.

Gentlemen:

We respectfully petition that a certain open drain dug by the Sewer Department, for the draining of the land east of our plant and the extermination of mosquitoes, over our property parallel to the Massachusetts Central Division tracks, be enclosed in pipe so that we might cover the drain and utilize the land for business purposes. We contemplate constructing a spur track to our property which will be located directly over the drain as it is now located. We enclose a blue print showing a culvert constructed by the Sewer Department under a passageway at the eastern boundary of our land. From this point approximately 398 feet, the drain is open to a brook on the west side of our land. It is very necessary that this drain be enclosed and we trust your Honorable Board will take care of the matter as soon as possible.

Very truly yours,

AMERICAN OIL COMPANY
