

To Sir, Ebenezer Mayor and the Board of
Aldermen of the City of Cambridge.

Gentlemen,

The undersigned, would res-
pectfully call the attention of your honorable
board to a nuisance existing on Hampshire
street in Cambridge. The undersigned is the
owner of a house occupies certain real estate
situated on the corner of Hampshire and
Mareford streets, and is continually troubled
by the waste water, running down since
Hampshire street, flowing into his lot,
and filling his cellar with water. It is
supposed that persons living further up
since street, are in the habit of letting the
water from their lots, into since street,
thereby making a large accumulation
of water, in addition to what naturally
comes down, which subjects the under-
signed to great annoyance and trouble.
He therefore asks that your honorable
board, will cause an examination to
be made in the premises, and render
him such relief, as law and justice

In Board of Aldermen, May 22. 1861.

The Committee on Reservoirs and Drains to which was referred the Petition of Hugh Fanning and others for the removal of the difficulty experienced by them, by reason of the surface water at the corner of Hampshire Street and Webster Avenue, has examined the premises and would respectfully Report:-

That, whenever the abutters shall grade up their sidewalks at the point complained of, the water will be prevented from flowing upon Webster Avenue, and the accumulation of water at the corner of Hampshire Street can then be removed by the construction of a cess-pool. The Committee would recommend that no action be taken until such time as the Petitioners shall grade said sidewalks.

Levitt Davis
for the Committee.

Accepted and sent down for concurrence.
