Dear *Councillor Triantafyllou*

25

although I believe a thousand percent in intuitional processes, in the case of choosing the head of the water department I don't think intuition without wise council was appropriate. For the simple reason that unlike the other intuitive decisions the city manager gave, the managing of the water resources directly affects the health of every single citizen in the City of Cambridge.

Secondlly one of the greatest resources the city of Cambridge has is its abundance of intelligent people. I would not like to see a resource such as the people of the Water Board languish and feel insulted.

Since there will come a time when you the Council will have to make financial decisions on money for new water facilities and since none of the Council members are experts in water managerment, I am asking some councillor to take the intitative to order a hearing of the Water Board so that its members may inform you of all the matters it considers important that you should be aware of in making your financial decisions regarding water resource matters.

I would appreciate hearing from a council member on this request,

Thank you,

Peter Valentine
661-3261

Consent Communication #9 S- 160

Comm. was received from Peter Valentine
requesting the Water Board inform the members
of the Council on all important matters
regarding financial decisions re: water
resource matters.
