

July 12, 1978

Mr. Paul Healy,
City Clerk, Cambridge Mass.

Dear Mr. Healy,

I would appreciate your considering a problem on our street relating to the care of dogs. A number of dog owners are bringing their dogs just to the middle of the block where we ~~live~~ happen to live, where there is a little break in the walk, so that the sidewalk gets pocketed with excrement. This is a nuisance for all residents walking down the block, especially in the dark,

and further it is a danger to health for children (according to studies done in New York), and there are a number of children living on this block. I hope you can convey this problem to

proper authorities who might convey to citizens who are dog-lovers that just a little extra care should be taken to take dogs to the curbside. Perhaps even some formal method should be used, such as a city ordinance. I would appreciate your help in this regard.

Sincerely,

M. J. Adams
