CITY OF CAMBRIDGE.

In Board of Aldermen, May 5. 1885

Ordered, The Committee on Road, and Bridges,
to which was referred the petition of Houghton,
Wiffen & Co and others, in relation to a nuisance
caused by stagnant water in the Mill Pond
District so-called,

Report

Recommending the
adoption of accompanying order authorizing the
purchase of filling material for said district,

For the Committee,

Charles W. Henderson

Report
Committee on Roads & Bridges
Filling material for the
Well Pond cemetery.

May 5. 1885.

C.C.

(May 5 2^d Reading)

Warm weather comes then
will be time enough to
do any filling at a much
smaller sum than \$4000.

As I still more hope that
the vote to spend that
amount of money for that
purpose will be lost
I remain

Yours Respy—
F. L. Chapman
Stamming

Cambridge Sept 22nd 1884

To The President of Common
Council of Cambridge

Dear Sir

I see by the
papers that the Cambridge
City Council propose filling
the Mill Pond in Cambridge
at an Expense of \$4000.

I think that it is wrong to
spend that amount of money
at just this time for this
reason

It is coming cold weather
and for 7 months there certainly
can be no trouble and during
that time it will be filling
with ashes and when the
- fills the City -

Cambridge, Sept. 6 1884.

To the Honorable, the City Council,
of the City of Cambridge,

The undersigned respectfully pray your Honorable Body that immediate steps be taken to fill in suitable manner the so-called "Mill Pond District" in Ward Four, and bounded by Western and Putnam Avenues, River and Howard Streets; also the basin lying Westerly of Blackstone Street, and Northerly of River Street, and the channel connecting the two above described territories.

The Board of Health have already, several weeks ago, called the attention of your Board of Aldermen to the importance of filling up this district as a measure necessary to the public health; but nothing has as yet been done in the matter.

The undersigned residents of Cambridge living and working near this district, are nauseated and sickened by the foul odors arising from the same, and are obliged to keep their windows closed or are otherwise inconvenienced thereby during the heated term. For these reasons, and as a sanitary precaution, in view of the probable approach of an epidemic, your petitioners urge that no further delay be allowed to exist in the matter of filling the districts alluded to in a proper manner with suitable material, and in such manner as shall protect the public health and comfort.
