AMBULANCE

DEPARTMENT

1894

CITY OF CAMBRIDGE.

OFFICE OF

SUPERINTENDENT OF PUBLIC BUILDINGS

AND

INSPECTOR OF BUILDINGS,

CITY HALL.

May 5th, 1894.

President John G. Thorogood and members of sub-committee on Ambulance.

Dear Sirs:-

The matter relating to the placing of the Ambulance in the same room with that of the Patrol Wagon, as suggested, has been considered and looked into, as requested, and the result is given on the accompanying plans. One showing the rooms as they are at present, and the other as contemplated after the removal of brick walls in the first story surrounding the sliding pole etc., The enclosure of brick above will be held up by steel beams as shown, which will afford the convenience required below. Another stall for the additional horse can be conveniently constructed, with a front sliding door reaching for the wagon; and the whole will cost about $ 400.00.

Respectfully yours,

Benj H. Steele.

SUPT. PUBLIC BUILDINGS,
AND
INSPECTOR OF BUILDINGS.
