Members of the Cambridge City Council
City Hall
Cambridge, MA 02139

Dear Members of the Cambridge City Council:

You will not doubt, this is to affirm, as on earlier occasion, my pride in being a resident of Cambridge and my delight in the resolution forwarded me on September 11. While I have sought over the years to demonstrate a somewhat suspect reputation for modesty, I was greatly pleased by the President's award and this was more than enhanced by the action of the Cambridge City Council. This agreeable legislative action, as well as the Medal of Freedom, has added to my sense of well-being, as did an earlier action of the Council during a period of indifferent health. There are many reasons for being happy as a resident of this City; they have now been solidly affirmed. May I plead that all Members of the Council be aware of my gratitude and, indeed, my improved sense of health and well-being.

Yours gratefully,
