RE: Conrail 1998 Vegetation Control Program

Dear Commission Members:

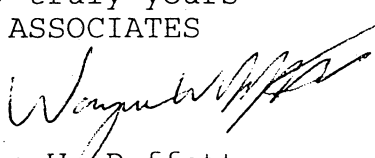

Enclosed is Conrail's 1998 Yearly Operational Plan prepared in accordance with the Massachusetts Rights-of-Way Management Regulations (333 CMR 11.00). Maps of the affected rights-of-way were recently provided to you as part of the Request for a Determination process. These maps and updates thereof continue in effect unless modified and should be retained in your files. The indication on the maps of private drinking water supply wells remains an on going process. Please notify TEC Associates and the Department of Food and Agriculture of any omissions.

The herbicide application as proposed in the 1998 Yearly Operational Plan is scheduled as follows:

Yards (non-sensitive areas, pre-emergent)	NONE
Rights-of-way	8-19 June 1998
Touch-up application	10-21 August 1998
Brush application (non-sensitive areas)	10-21 August 1998

The location of signs marking the limited and no-spray zones will be verified prior to the application. Please call TEC Associates with any questions about this Plan.

Very truly yours
TEC ASSOCIATES

Wayne W. Duffett
