### Cub pack holds model car derby

Deputy City Manager

February 23, 1987

To the Honorable, the City Council:

Attached is an order requesting an appropriation and the authorization to borrow to fund this appropriation of \$1,650,000 to provide funds to purchase a City-wide radio communication system.

The present radio system used by City departments is outdated and troublesome, as it only allows communication within individual departments. With the new City-wide system, departments will also be able to communicate with each other on a daily basis or during an emergency. This system operates on the 800 MHZ frequency, and represents the most innovative high technology available. This technology, used in telephone communications for years, enables multiple radio transmissions on selected channels in a fraction of a second. The new system will integrate radio communication for the following City departments: Public Works, School, Fire, Electrical, Inspectional Services, Traffic and Parking, and Water.

Passage of this order is recommended.

Very truly yours,

Robert W. Healy
