I would respectfully request that in case the office of Head Janitor for the city is established, that my name be considered. I am an Engineer by profession and can furnish recommendations as to my ability. Through disabilities from the effects of service I have lost my left arm, but consider myself as competent as before.

If any further application is necessary, I will upon being so informed, file it.

To whom it may concern

The bearer (Mr. Kelley) worked for us as Janitor and also had charge of Boiler and heating apparatus.

He gave perfect satisfaction and his only reason for leaving was the late hours of labor required, our building being open until ten o'clock.

We have no hesitation in recomending him to any one desiring a man for such a position
