92 Washington Ave.
Cambridge, 02140

Dear City Council Members,

I have been a resident of Cambridge since 1926. I am on the advisory boards of both the Departments of Welfare and Social Services and have worked for many years for local candidates for office. My child goes to the local public school. I mention this only to indicate my level of interest in the city.

I would like to register my support for formulating zoning laws which will allow for the maintenance of what neighborhoods hospitable to families remain to Cambridge. In addition, I wish to encourage provisions for the historical continuity of these areas. This means that the exteriors of these large houses be changed as little as possible while allowing for interior alterations to permit a combination of affordability and family growth.

If we do not do this the city as a whole will suffer. Neighborhoods will lose variety and the base for such institutions as churches and schools which contribute leadership, interest and cultural richness to the city will be further eroded.

Thankyou for giving this your serious attention.

Yours sincerely,

Christie Dennis
