In re the street-lighting of Berkeley Place.

The undersigned, owners of property on Berkeley Place, hereby petition that, in the place of the ~~present~~ single gas-burning street-lamp, two electric street-lamps be installed and as follows: one at the entrance to Berkeley Place, a second on approximately the site of the present gas-burning street-lamp.

Under existing conditions it is, first, difficult for strangers to find the entrance to Berkeley Place at night; secondly, due to the insufficient illumination afforded by the present gas-burning light, it is scarcely safe for women to walk down the street at night. In connection with the last point it may be noted that women residents ~~in the vicinity~~ of Berkeley Place have been accosted in the darknessx by strangers.
