

September 6, 1973

TO: City Clerk

We, residents and homeowners do hereby request to be put on the agenda of the City Council on Monday, September 10, 1973, for the purpose of discussing the construction of a Kentucky Fried Chicken restaurant at the corner of Prospect and Hampshire Streets. We are in extreme opposition to it.

We feel there are several very dangerous repercussions if this kind of a business is built. Such things as traffic congestion, noise, litter, visual pollution, etc. can be expected from a business like this.

We understand the Model Cities Board has voted to approve this building. We wonder how they reached this decision without a neighborhood meeting, without notification, and without a consensus of opinion from the residents whom they purport to represent.
