CAMBRIDGE MA.

ATTENTION CAMBRIDGE CITY COUNCIL

As a concerned parent, and/or a resident of Cambridge or a surrounding town, I (we) feel it would be a disservice to our children to eliminate the present Pediatric ward at the Cambridge Hospital. To reduce our bed space to four and to relocate these pediatric beds on an adult ward, we fear we will lose special services, such a rooming in, the playroom, and a familiar, caring staff.

As a trusted and elected official, we urge you to consider what a great loss to the community would be felt if Pediatrics bears the weight of the new hospital budget.

SINCERELY,

Barbara Covey
