Hon. Am. A. Bancroft

Mayor of Cambridge.

Dear Sir, I wish to call your
attention to a matter connected with the extension
of Amos Street. that should receive the early attention of
the City Council. By the plan of the city Engineer. to which
we would respectfully call your attention. you will see
that we must have two small pieces of land that now
belong to the company who are grading and improving
the land on the south side of this extension. we have
negotiated with the parties and offered them 15¢ per foot
for what we need. which is all it is worth. and really
they could afford to give the land to the city on acct.
of the great benefit they will derive. but they want other
concessions from the city that our Board do not think is for
the city's interest to grant. we therefore think the only way
now is for the city to lay out the street as an extension of
Amos Street as a public highway. subject to betterments so
far as what we take from them is concerned. (the rest

being exempt from betterments under the bond to the city giving this twenty foot wide, nearly all the way for street purposes) and then let the settlement be made later on, and the expense charged to the Water works, probably to the "Fresh Pond Land account," as this is necessary to complete our outside driveway around the Pond.

Another matter should receive attention soon if the work of building that street is to be done this year, that is the people occupying the houses on Woodlawn Park should be given thirty days notice to vacate the premises belonging to the city, and all the houses should be then advertised and sold at Auction to clear the premises.

I think it would be well to have two or three good parties go onto the ground and appraise the value of the buildings before they are sold, for in case the matter of settlement with the owners, goes before Commissioners, or into Court. I am afraid that most extravagant prices would be claimed for rather poor buildings, and we should be ready with competent expert testimony, to give the true value, that the city should pay for. I write to you as the Executive head of the city, and will know best, what means will be required to accomplish what is needed.

Yours Respectfully

B. W. Knigley Treas. or B.
