

CONSENSUS

Citizen Democracy

The political establishment will not let you read this. Because it exposes them as total frauds. Since 1988 you have witnessed change in the world political structure. Big change. When things happen there is a reason. How could tired, old, corrupt, timid bureaucrats possibly be responsible, or even involved? They never did anything but put a news blackout on what really happened, so they could fool you and claim credit. Sadly there is no free press in America today. But the truth will out.

Consensus Citizen Democracy is a successful movement for inclusive democracy, peace, and freedom on an environmentally alive world. It works. It works by preventive people to people citizen diplomacy. Become a part of this American legend. You have seen what can be done.

The majority of the American people know that the nation is on the wrong course. We have rudderless windbags letting the nation drift aimlessly. Clowns. Stooges of tyrants now talk of freedom, the heartless who drove even children into homelessness speak of compassion, the lords of privilege and corruption now talk of justice, artful deceivers now expound on education. Indeed. These narrow-minded idiots fought common-sense policy; they said peace was naive, freedom utopian. But the people did not think so. The people took back what was rightfully owned.

Now we the ordinary American people must take back the nation from these sinister, manipulative, hired legmen of the political establishment; who see us as only disposable employees at best. They do not want you to vote. They distract the people with meaningless issues that never effect them, so they can profit. Personal profit is the establishment policy. When things happen there is a reason.

But who is protecting the people. When even the middle class is failing, something has gone seriously wrong. The establishment decrys the morals of society, when establishment propaganda outlets sell constantly the value of greed and violence. They own it. They are responsible for the effects but they blame the people.

To the point. We are organizing a party to defend the interests of the people. We need your support. Join us. Help build a vote block for the total nation, real people real change. We need new leadership capable of clear policy that can solve social problems effectively at low cost. Change for the better now.

Yes I want to help organize a new party for the people. A party for a new American agenda. I support democracy, peace, freedom, and true environmental and economic progress.

Here is my contribution of - 10.00- 25.00- 35.00 Dollars.
