Dear Councillors Russell and Sullivan:

Thank you for the copy of the City Council resolution. I appreciate your stopping by to leave a copy for me and am sorry that I was not here to greet you.

I have read the resolution carefully and agree with most of it. I certainly can assure you that Harvard will not be engaging in "unnecessary litigation of artificial issues" in order to delay an election, or for any other reason for that matter. Our behavior will be well within the letter and spirit of the law and consistent with the values of the University.

With best wishes.

Sincerely,

✓ cc: Members of The City Council
