To Cambridge Taxi Drivers,

The bus service between Alewife and Logan Airport has been extended one week and will now run through Sunday, December 1st. This decision was made due to the increased ridership and strong public request to extend the service through the busy Thanksgiving travel period. This service will end Sunday, December 1.

In the event the public response warrants the use of Alewife as a permanent satellite parking lot, Massport will comply with all applicable state, federal and local agency requirements. In addition, I will hold a meeting with the Cambridge taxi industry to discuss such plans prior to implementation.

Sincerely yours,

MASSACHUSETTS PORT AUTHORITY
