CITY OF CAMBRIDGE
INTEROFFICE CORRESPONDENCE

To Mr. James L. Sullivan, City Manager

Date May 5, 1977

From Mr. George Teso, Traffic Director

Reference

Subject City Council Order #3 of April 25, 1977 "Street Name Signs"

The Traffic and Parking Department in 1973 conducted a survey of the Street Name signs in the City of Cambridge with a view towards improving the method and type of signs used by the Department of Public Works.

A report was submitted at that time to the City Manager and the City Council outlining a five (5) year program that would see the entire City posted with the new high reflectorized international type white on green street name sign.

The program basically stated that the responsibility of installing these signs be transferred from the Public Works Department to the Traffic Department and that the five (5) year program be as follows:

First Year: Post all the historical streets to coincide with the Bicentennial Celebration,

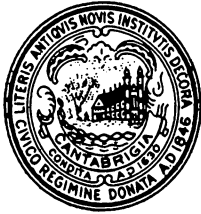

Second Year: Post all the Emergency Arteries,

Third Year: Continue posting the Emergency Arteries and start posting the secondary streets,

Fourth Year: Complete posting the secondary streets,

Fifth Year: Post all the private ways and unaccepted streets in the City.

We are now entering the third year of this program and will continue this program until every intersection in the City has at least four (4) or more signs indicating all side streets as well as the main streets.
