

We, the undersigned, ask the Cambridge City Council to locate the new library at the Prospect Street site. This site offers a bigger, better library building located in a place that is more accessible to more people and more schools. Its proximity to the T and to Area Four, Riverside, and Cambridgeport will make it much more available to our citizens. Our city is a city of learning. In this visible location we should have a library not a police station.

This site offers a bigger, better library building located in a place that is more accessible to more people and more schools. Its proximity to the T and to Area Four, Riverside, and Cambridgeport will make it much more available to our citizens. Our city is a city of learning. In this visible location we should have a library not a police station.
