To James L. Sullivan, City Manager

From Richard Fahlander

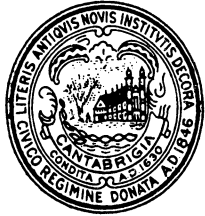

Date 15 February 1980

Subject City Council Order No. 2 of 4 February 1980
Re: Air Quality at MBTA construction sites

The Department of Environmental Quality Engineering has established standards for the allowable emissions from the MBTA blasting. According to Joseph Durant at DEQE periodic inspections have taken place during the past several months. Mr. Durant will be making another inspection next week, and will prepare a report which I will forward to you. Up to this time the contractors have been complying with DEQE standards.
