

RECEIVED BY
TO THE CITY OF CAMBRIDGE, MASSACHUSETTS

1987 SEP 10 PETITION 31

CAMBRIDGE MA.

Now comes the petitioner: William P. Foley - a resident at 131 Spring Street. To petition the city of Cambridge city council; for the promotion and establishment of the "fairness election doctrine", a policy intended to allow the constitutional intent to use the municipal expense channel to enhance elections as fair and equal as can be; respectful of a true and free democratic process, adhering to constitutional doctrine. Where free speech, free access and uncensored issues, and debate that can be expounded in an open forum and duly transmitted to those who are interdependent. Where the viewers can see, evaluate and scrutinize all the certified candidates.

A situation where the electorate and public may by their mutual endeavors answer questions and have hands on feeling for the greivances of the electors, and selectors. Therefore assert that the municipal channel is the only true compelling channel that could be held responsible to air the paramount municipal matter, selections, and election of municipal public servants. It is suggested that implementation be made available as soon as the city council may so order. It is further suggested that the city council act upon this petition in a suspension of any rule allowing preference of the petition to be heard in the most expeditious way so that the voters in the coming November election will have the privilege of being one of the first class of citizens in the commonwealth of Massachusetts to receive the benefits from a municipal body who subject themselves for re-election, and face the television camera subject to accountability from those who have claimed to serve omnipotently. Access to all persons - respective of any differences of classification shall not be abused by any acts of prejudice or discrimination whatsoever.

I do support this "petition" and affix my seal.
