CAMBRIDGE MA.

To the Honorable, the City Council of the
City of Cambridge:

The undersigned respectfully pray

In light of the recent ordinance prohibiting smoking in public buildings (Cambridge) I would like to propose the installation of numerous, special refuse receptacles (i.e. ashtrays) on the city streets in propitious locations. This endeavor would reflect regard for the 'smoker' who, forced on the streets, is, in turn, forced to dispose of cigarette butts in the streets, further adding to his/her reputation as a 'menace to society.' Furthermore, this endeavor would prove foresight ^{on the part of the city council} with regard to the _{problem of} increased ~~in~~ street litter consequent to the prohibitive ordinance.

Respectfully submitted,

Gregg Suzanne Ferguson
