"CAMBRIDGE PLAN"
Statement of Purpose

The purpose of the "Cambridge Plan" is to bring together providers of human services, including non-profit agencies and the City, to work collaboratively in developing a blueprint for a healthy Cambridge. The primary consideration in this blueprint should be the human service needs of individuals and families in Cambridge, although this need not preclude the possibility of collaboration with neighboring communities. Community participation and the involvement of volunteers are important components in the identification of both needs and solutions. In a time of scarce resources, involvement in this planning effort implies the willingness of both providers and the City as a funder to reexamine existing patterns of service provision and resource allocation. All parties to the Plan will work toward establishing service priorities to guide future funding decisions and interrelationships of service providers with each other and funders.
