

STATEMENT BEFORE THE CAMBRIDGE CITY COUNCIL BY THE CAMBRIDGE
LEAGUE OF WOMEN VOTERS MAY 22, 1970

Members of the Cambridge League of Women Voters share the sense of outrage among Cambridge citizens that for the second time this year the business of government in this city is about to be brought to a halt --- that the needs of the citizens are once again being subordinated to political maneuvering --- and that the pressing issue of low-income housing is being made a political football.

It is requested that these remarks be included in the record of this meeting.
